Fakulteti i Shkencave të Detit dhe Mjedisit

Univerza v Ljubljani

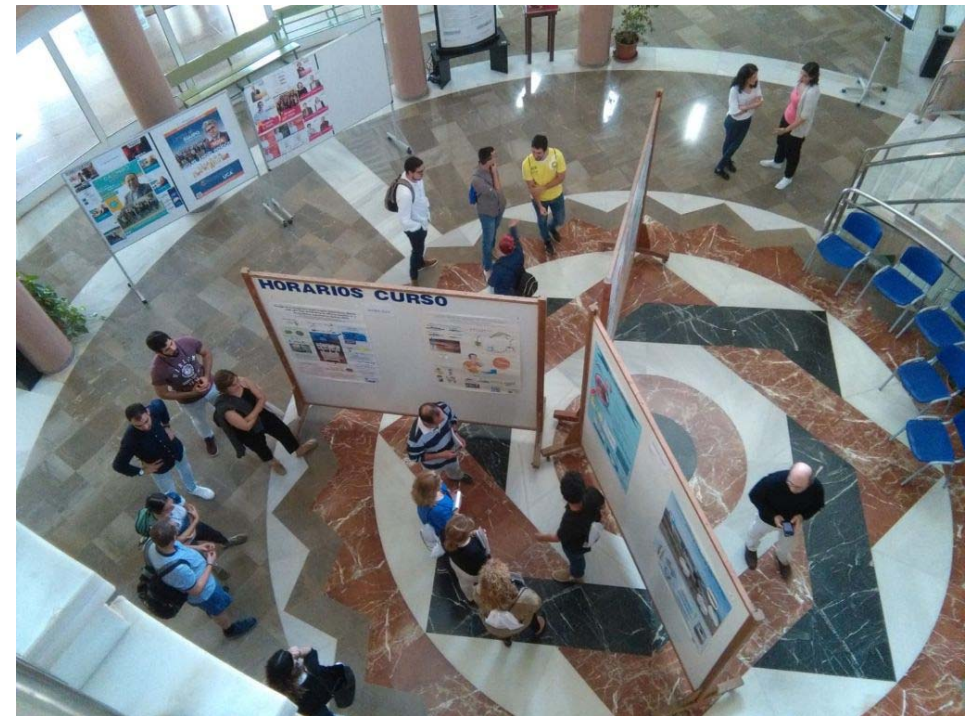

The Faculty of Marine and  
Environmental Sciences of the  
University of Cádiz began its journey  
32 years ago.

Annually, around 900 students are trained by about 120 professors.

# BSc

Two Bachelor's degrees,  
in Marine and in  
Environmental Sciences  
are taught in our faculty

# BSc in Marine Sciences

## Management of living resources

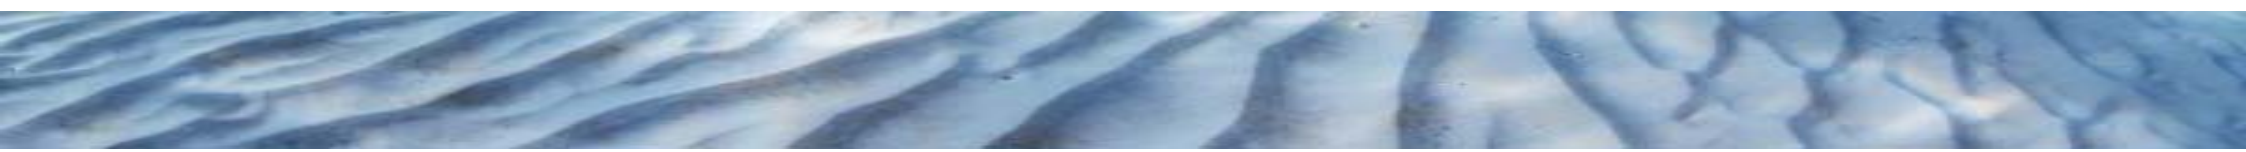

# BSc in Marine Sciences

Oceanography

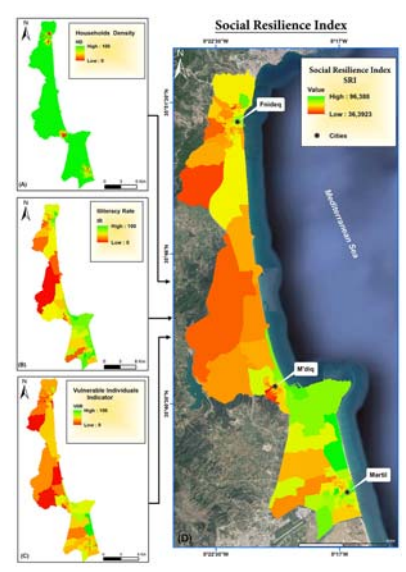

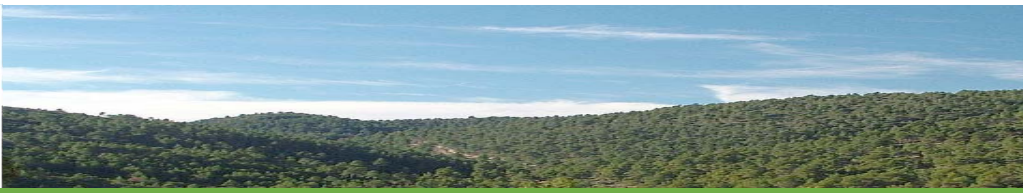

# BSc in Marine Sciences

## Management of Coastal Areas

# BSc in Environmental Sciences

Conservation of  
Natural Areas

# BSc in Environmental Sciences

Environmental  
Technologies

# MSc

## Master in Aquaculture and Fisheries

MSc

Master in  
Conservation and  
Management of the  
Natural Environment

# MSc

## Master in Integrated Management of Coastal Areas

# MSc

## Master in Water Management

# MSc

## Master in Oceanography

# Infrastructures

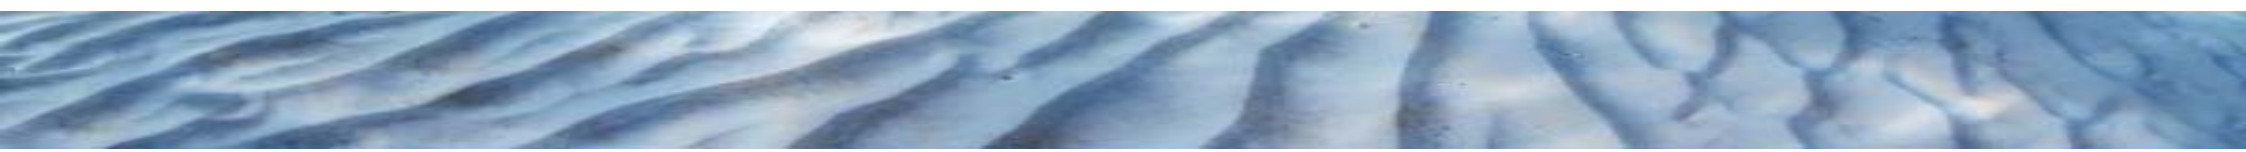

# Infrastructures

2800 m<sup>2</sup> of classrooms

# Infrastructures

2000 m<sup>2</sup> of laboratories

## Infrastructures

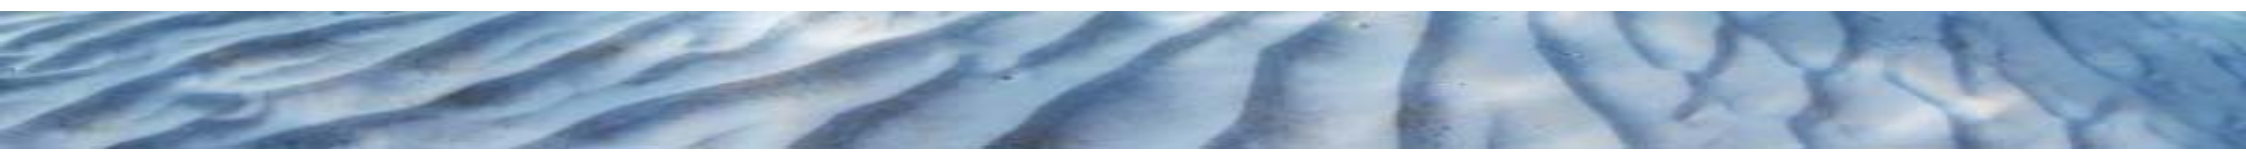

The oceanographic vessel

# Infrastructures

## Marine Culture Installations & Services

Along with these infrastructures, it is worth mentioning that the Faculty of Marine and Environmental Sciences is located within the Bahía de Cádiz natural park.

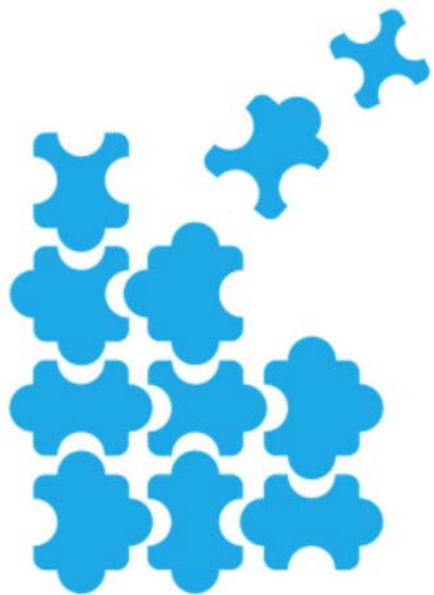

This protected natural area, together with the other four that are located in our province, represent a key element in the teaching and research activities that take place in our faculty.

## Accreditation of bachelor's and master's degrees

### **EUROPEAN** Higher Education Area

In accordance with the criteria and guidelines for quality assurance in the European Higher Education Area, the curricula leading to obtaining official university degrees must be verified

## Accreditation of bachelor's and master's degrees

The entity responsible for this verification is external to the university and must pass an external evaluation that allows it to be a full member of the European Association for Quality Assurance in Higher Education. –ENQA

# Accreditation of bachelor's and master's degrees

For its verification, a report is prepared for each degree and official Master:

1. Title description
2. Justification
3. Competences
4. Access and admission of students
5. Teaching planning
6. Academic staff
7. Material resources and services
8. Expected results
9. Internal quality assurance system

## Accreditation of bachelor's and master's degrees

The University of Cádiz has implemented a Quality Assurance System (QMS) that integrates different **mechanisms and procedures**, relating both to the collection and analysis of **information** on different aspects of the study plan, as well as the way in which this information will be used to **monitoring, reviewing** and making decisions to **improve** it.

# Accreditation of bachelor's and master's degrees

In the case of our **faculty**, the responsible for ensuring the quality of the degrees and their continuous improvement is the **Quality Assurance Commission**, which is made up of **professors, students, staff from administration and services and professional colleges and associations.**
